## SUMMARY

Developed and deployed robust software applications as a skilled software engineer and Full Stack Web developer, specializing in front-end frameworks such as React.js and Next.js. Engineered efficient back-end systems utilizing Django and Node.js frameworks. Proactively pursued ongoing professional growth and actively engaged in exploring the evolving domains of Web3 and Blockchain..

## EDUCATION

**Ajay Kumar Garg Engineering College, Ghaziabad**

May 2021 - Present

Bachelor of Technology in Information Technology

**Bethany Convent School, Prayagraj**

Intermediate

Percentage: 91.8%

## TECHNICAL SKILLS

**Languages:** JavaScript, Python, Solidity, C, SQL.

**Tools:** Data Structures and Algorithms, Airtable, Truffle, Ganache, Hardhat.

**Frameworks:** Next.js, React.js, Node.js, Express.js, Django.

**Database:** MongoDB, MySQL, Postgres SQL, IPFS.

**Web development:** JavaScript, jQuery, HTML, CSS, Bootstrap, SCSS, Materialize,

## EXPERIENCE

**Freelancer | Upwork**

Developed numerous websites and applications to cater to diverse client requirements. These projects have been designed to serve various use cases and have been executed to the utmost satisfaction of the clients.

**Technologies:** *Next.js, React.js, Django, HTML, CSS, JavaScript, Python, WordPress*

## PROJECTS

**Social Media App on lens protocol**

- Developed a dynamic social media application on lens protocol using typescript, next.js lens-API, graphql, and react tanstack query that has the feature of posting content on lens social media and interacting with other users by following their posts and content.

**Technologies:** *Next.js, Typescript, GraphQL, Lens-api, Tanstack query, Tailwind Css, GraphQL codegen.*

**Github:** [codewizard26/lens-social-media \(github.com\)](https://github.com/codewizard26/lens-social-media)

**Search Coffee-Store and Nextflix App**

- Developed a dynamic application utilizing the Google Maps API to enable users to pinpoint and evaluate nearby coffee stores, leveraging Next.js' SSR and incremental site regeneration to efficiently present the data. Implemented Airtable for seamless storage and management of coffee store information and ratings.

**Technologies:** *Next.js, Airtable, Magic Authentication, CSS, Materialize.*

**Github:** [codewizard26/coffee-store-nextapp \(github.com\)](https://github.com/codewizard26/coffee-store-nextapp)

**E-com Application**

- Developed a user-friendly interface and streamlined navigation, enabling customers to effortlessly navigate the website and choose items. The payment method for purchasing items from the cart is facilitated by Braintree

**Technologies:** *React.js, Redux, Django, Django\_rest, Braintree, MongoDB.*

**Github:** [codewizard26/Ecom-: Ecommerce app using django and react \(github.com\)](https://github.com/codewizard26/Ecom-: Ecommerce app using django and react)

## POSITION OF RESPONSIBILITY

**Community Contributor | web3Suggest** by Quill audits

Feb' 2023 - Present

- Orchestrated the management and coordination of event partnerships as media and education partners, resulting in successful collaborations and heightened visibility for web3suggest.

**Hacker Earth Campus Ambassador | AKGEC Ghaziabad**

Oct' 2022 - Present

- Successfully coordinated with the heca members and the community to foster the growth and development.
